REMINDERS

Keep your footwear simple with sandals or sneakers/comfortable shoes. The majority of the historic district is paved with cobblestone and it can be difficult to walk in heels, etc. If you plan to spend some time on one of the city's rooftops, you may want to pack a sunhat. Afternoon thunderstorms are very common in the South because of the heat, so small umbrellas or pocket poncho are great to have on hand. Airport: If you will need to be transported from the airport, please let us know your airline and flight arrival and how many are in your party. Also, please don't forget to book your hotel, if you haven't already. Reach out with questions.
